LETTER FROM THE WAAHP PRESIDENT

As we gather for our first WAAHP post-Covid conference, I am thinking of the amazing work members of the association are doing for their students and for each other. I think we all have come so far and have overcome so many great obstacles. I love seeing advisors reach out to other advisors and help them with mock interviews, workshops, referrals, and just to support each other with love and friendship.

I think this year's theme *"A New Hope: Rise Up With Resilience"* is so very fitting for all of us. I have seen the resilience from so many of you as you assist your communities, schools, and students with great effort as you try to balance work and home with all that is going on. I have great hope as we move forward and as my term as President ends. I hope that we can all treat each other with love and compassion in everything we do and that we can be builders and lift each other. I hope we can build positive relationships with each other and invite more advisors to join us so that as a unit we can become stronger. Please take a minute and reach out to those at the conference and really get to know each other.

I have always joked with the other regions of NAAHP, but it really is no joke "West is Best" and can continue to be best if we Rise Up with Resilience and make the profound change that is needed.

Douglas Watson
WAAHP President
Utah Valley University

LETTER FROM THE WAAHP 2023 MEETING CHAIR

Welcome to Southern California and WAAHP 2023! We're excited to host you over the next few days as you learn, connect, and envision new and refined practices to take back to campus.

This year's theme: *A New Hope: Rise up with Resilience*. . . . accurately reflects and sets the tone of this in-person meeting as we continue to navigate a post-pandemic world. We can all agree the past few years have been a myriad of difficult challenges, and in the same breath, we can likely agree that we have somehow been able to navigate the past few years to support our students and help move them onward. Along with our theme, the spirit of our conference encompasses how we can look ahead and collaborate as a unified Force so we are able to arm our students with the tools and power they need to Rise.

I can't begin to tell you the tally of clock hours that went into the planning for this meeting. This entire meeting was constructed by the hands, hearts, and minds of volunteer pre-health advisors. All of our planning committee members put time and energy into building this conference while maintaining a full-time advising role and often while taking on significant family and personal obligations.

We're excited that you are here for WAAHP '23 and we know it will be a great success!

Charles P. Scruggs
WAAHP '23 Meeting Chair
WAAHP President-elect
University of California, Riverside
